Dear Sir, After my early letter (17 August) i have found for you a very interesting business. An italian factory specialized in warming and chilling of the living spaces ,looks for a partner which permit it to expand the production over the international market .

I have thought about you , because over this business is possible to expand the goals to the entire constructions of the building of skyscreapers , of open space offices o entire manufacture enviroments .

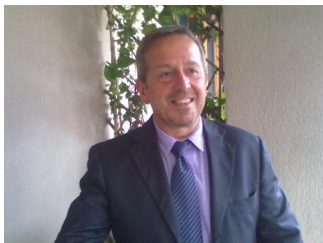

I'm very grateful if you contact me for details

Contact me without problem, via the website or by mail to www.utili.biz gg@gbt.it.

Thanks for the attention

Best Regards

Guido Giovanni
